TAHMEED RAHMAN

+88 01312291297 | rahmantahmeed@gmail.com | LinkedIn | GitHub | Dhaka, Bangladesh

SUMMARY:

Software Engineer with a Master of Information Technology from Swinburne University of Technology, Sarawak, Malaysia, and a Bachelor of Technology in Information Technology from the Institute of Engineering and Management, India. Experienced in designing, building and deploying full-stack software, from front-end interfaces to back-end services and database layers. Delivered production systems for a national microfinance institution, including a SARIMA and XGBoost financial forecasting pipeline and a natural-language SQL agent, along with a chronic-disease management platform deployed on AWS. I also design, publish and maintain my own software on the Google Play Store and the Chrome Web Store, and sell premium website templates through my own e-commerce store.

E-Commerce Store: https://tr-dev-studio.vercel.app/

Gumroad Store: https://tahmeedrahman.gumroad.com/

SKILLS:

- Python | JavaScript | Node | Express | React | JSX | Vite | Flask | Jinja | HTML | CSS | Tailwind CSS | XML | MySQL | PostgreSQL | MS SQL Server | SQLite | UI/UX | Web Developer | Full Stack Developer
- RESTful Applications | Cloud Computing | AWS | Azure | Vercel | Ollama | LLMs | NLP | NL-to-SQL | AI Development | AI Model Training | Deep Learning | SARIMA | XGBoost | Pandas | NumPy | Statsmodels | Agile | Scrum | Debugging | Git | GitHub | Figma
- Android Development (Capacitor) | Chrome Extensions (Manifest V3) | Web Audio API | Google Play Console | Chrome Web Store | Product Marketing | Graphic Design | Adobe Premiere Pro | Problem-Solving | English | Bengali | Hindi

  - All professional proficiency or above

WORK EXPERIENCE:

Independent Software Developer (Product & Client Work) **Self-employed** *Dhaka, BD (Remote)* **12/2025 – Present**

- Deliver freelance software and web development for companies, building and shipping applications and websites to client requirements, from brief through to delivery and handover.
- Design, build, publish and maintain my own software end to end, writing the code, passing platform review and shipping updates to live users. Published **Habitlee: Habit Tracker** to the Google Play Store under my own verified developer account, along with three Manifest V3 extensions on the Chrome Web Store.
- Design and sell premium website templates through my own e-commerce store, handling the build, the deployment and the storefront itself.
- Run product marketing directly, creating the campaigns and content that convert attention into installs and sales.

Software Engineer (On-Site) (Full-time) **ASA Bangladesh** *Dhaka, BD* **04/2025 – 11/2025**

- Built an AI-powered virtual agent chatbot for ASA, a leading microfinance institution, integrating natural language processing to handle client queries on loan application status, account services and general support through conversational interfaces.
- Designed and implemented the ASA Prediction System, a fully automated, data-driven forecasting pipeline for ASA's monthly financial balances, combining SARIMA for trend and seasonality with XGBoost for nonlinear residual learning.
- Worked directly with finance and operations teams to translate reporting requirements into production systems.

Software Developer (Contract) (Remote) **Still Waters Fiduciaries** *Kuching, Malaysia* **02/2024 – 09/2024**

- Developed the Sales Workflow Information System (SWIS) with a user-friendly web interface for managing sales and user data, serving both clients and administrators.
- Automated structured data entry from WhatsApp through an AI chatbot, significantly reducing manual workload.
- Built and optimised a secure, scalable database using Flask, Jinja, Python, SQL and Machine Learning to support long-term data growth.

Intern Software Engineer **Square Hospitals Ltd** *Dhaka, BD* **05/2023 – 10/2023**

- Gained hands-on experience across the software development lifecycle, from requirements analysis through development, testing and deployment.
- Assisted with coding, debugging and testing on internal projects, and maintained project documentation, design documents and user manuals.

Intern Developer **Anwer Khan Modern Medical College Hospital** *Dhaka, BD* **06/2022 – 09/2022**

- Acquired working knowledge of the software development lifecycle, programming languages and tools.
- Documented key processes and maintained detailed project records, including plans and design documents.

PROJECTS:

- **ASA Prediction System (ASA):** Built for ASA to forecast their monthly financial balances using a hybrid SARIMA and XGBoost pipeline, where SARIMA handles trend and seasonality while XGBoost learns nonlinear residuals. Connects automatically to ASA's SQL Server, preprocesses data with optional COVID-period exclusion, and delivers visual and tabular forecast outputs. (Python, NumPy, Pandas, Matplotlib, Statsmodels, XGBoost, SQL Server) **(08/2025 - 11/2025)**
- **ASA AI Agent (ASA):** Built for ASA's microfinance operations, allowing non-technical staff to query ASA's loan and financial data in plain English. Translates natural language into optimised SQL queries and returns intelligent answers instantly, with semantic caching for high-performance repeated queries. (Python, Ollama, LLM, Pandas, Flask, Jinja) **(05/2025 - 07/2025)**
- **Personalized Healthcare Management System (Client Project):** Developed for a client to manage chronic diseases by integrating patient data from EHRs, CGM devices and user uploads. Features a Knowledge Graph for data analysis, AI-driven Natural Language Generation for insights, patient monitoring, secure data uploads and admin management, deployed on AWS. (Python, Flask, MySQL, AWS, JavaScript, HTML, CSS, Jinja2, NLG, Knowledge Graph) **(04/2024 - 07/2024)**
- **Sales Workflow Information System (Still Waters Fiduciaries):** Built to streamline sales record management, with a structured database, a web interface for clients and admins, and an AI chatbot that automatically extracts and enters data from WhatsApp messages. (Python, SQL, Flask, Jinja, HTML, CSS, JavaScript, Machine Learning) **(02/2024 - 04/2024)**
- **Habitlee: Habit Tracker (Google Play, Live):** Offline-first Android habit tracker with streaks, reminders and a daily progress view, built as a React and Vite application and shipped as a native Android package. Published under my own verified Google Play developer account. (React, Vite, Tailwind CSS, Capacitor, Android) **(2026 - Ongoing)**
- **TR Dev Studio E-Commerce Store and Website Templates (Live):** My own e-commerce store where clients buy my digital products, together with six premium, launch-ready website templates designed, built and deployed live: Hora XII, Lumina, Zeya, Kava, ProjectDoc and the storefront itself. (React, Tailwind CSS, HTML, CSS, JavaScript, Vercel) **(2025 - Ongoing)**
- **Chrome Web Store Extensions (Live):** Three published Manifest V3 extensions, each with a free and a premium tier: Volume Booster + EQ (Web Audio gain chain with a live 3-band equaliser and a distortion-safe limiter), Word & Character Counter, and Link Copier. (Manifest V3, JavaScript, Web Audio API, Clipboard API, Chrome Storage API) **(2026 - Ongoing)**
- **E-Commerce Websites (Client Projects):** Developed fully responsive e-commerce websites for clients, optimised for all devices and screen sizes. (React, Tailwind CSS, JavaScript) **(2025 - Ongoing)**

EDUCATION:

Master of Information Technology	Swinburne University of Technology	*Sarawak, Malaysia*	**2023 - 2024**
Bachelor of Technology in Information Technology	Institute of Engineering and Management	*Kolkata, West Bengal, India*	**2018 - 2022**
Higher Secondary	GD Goenka Public School	*Siliguri, India*	**2016 - 2018**
Secondary	Mount Hermon School	*Darjeeling, India*	**2014 - 2016**

PARENTS:

Prof Dr Md Ekhlasur Rahman
Executive Director & Ex-Principal
Head, Dept. of Pediatrics
Anwer Khan Modern Medical College

Prof Dr Rehana Perveen
Senior Consultant, Professor of Gynae
& Gynecological Oncology
Square Hospital Ltd

REFEREES:

Md. Mukhlesur Rahman
Brig. Gen. (Retd), Advisor
Elite Security Services Ltd

Md. Shefaul Karim
Addl. Secretary (Retd.), Senior Consultant (P, L & TM)
ASA Tower
